## Houseplant Tip

It's important to watch houseplants closely.

According to [gardenguides.com](http://gardenguides.com), an online gardening resource, you should inspect plants regularly for yellowing or discolored leaves. This condition is usually caused by overwatering, but can also be the result of insects. Deformed plants and sticky deposits on leaves and stems can be caused by insects as well.

**Health Tip: May is Arthritis Awareness Month.** Arthritis is a leading cause of pain and disability, but healthy habits and early care can help reduce pain, protect joints, and improve quality of life.

**Below are some tips to help you with arthritis:**  
**Stay physically active:** Physical activities such as walking, swimming, and strength training can help reduce joint pain, improve flexibility, and support overall joint health.  
**Maintain a healthy weight:** Excess weight puts added stress on weight-bearing joints which can worsen arthritis symptoms.  
**Protect your joints:** Using proper body mechanics, assistive tools, and pacing daily activities can help prevent joint strain and injury.

**Don't ignore symptoms:** Early diagnosis and treatment can slow disease progression and help preserve mobility  
 To learn more about arthritis, visit CDC's page on arthritis.

\*\*\*\*\*  
**Laughter is good for the soul**  
 - A Day without laughter is like coffee without caffeine- technically possible, but why would you?  
 - Sometimes the best medicine has no side effects except snorting in public.  
 - They say money can't buy you happiness...but it can buy snacks, and have you ever been sad with snacks? Exactly.

\*\*\*\*\*  
**Thought for the week:** The human brain can store roughly 2.5 million gigabytes of information...and still forget why it walked into a room.
