Houseplant Tip

It's important to watch houseplants closely. According to gardenguides.com, an online gardening resource, you should inspect plants regularly for yellowing or discolored leaves. This condition is usually caused by overwatering, but can also be the result of insects. Deformed plants and sticky deposits on leaves and stems can be caused by insects as well.

A Healthy Pet Is a Happy Pet.

You love your pet, so make sure he stays safe and healthy all year round. How?

- Take a note of your pet's behavior when healthy. This will make it much easier to recognize when your pet is acting strangely - a strong indication that he is sick.
- Keep your pet's vaccinations up-to-date.
- Don't leave pets unattended in the car, even with the windows down.
