TAX GUIDE

THE RIGHT TO RETAIN REPRESENTATION

The Taxpayer Bill of Rights is a cornerstone document that highlights the 10 fundamental rights taxpayers have when dealing with the Internal Revenue Service. The IRS wants every taxpayer to be aware of these rights in the event they need to work with the IRS on a personal tax matter. The IRS continues to publicly highlight these rights to taxpayers. The IRS also regularly reminds its employees about these rights. The IRS expects employees to understand and apply taxpayer rights throughout every encounter with taxpayers. IRS Publication 1, Your Rights as a Taxpayer, includes a full list of taxpayers' rights.

It includes The Right to Retain Representation.

Taxpayers have the right to retain an authorized representative of their choice to represent them in their dealings with the IRS. Taxpayers have the right to seek assistance from a Low Income Taxpayer Clinic if they cannot afford representation.

What you can expect:

- You may select a person, such as an attorney, certified public accountant or enrolled agent to represent you in an interview with the IRS. You do not have to attend with your representative unless the IRS formally summons you to appear.

- In most situations, the IRS must suspend an interview if you request to consult with a representative, such as an attorney, CPA or enrolled agent.

- You may have any attorney, CPA, enrolled agent, enrolled actuary, or any other person allowed to represent taxpayers before the IRS submit a written power of attorney to represent you. The person must not be disbarred or suspended from practice before the IRS.

- If your income is below a certain level, you may ask a Low Income Taxpayer Clinic to represent you in your tax dispute before the IRS or a federal court. The services are free or for a minimal fee. Many LITCs offer services in languages other than English. Although LITCs get partial funding from the IRS, LITCs, their employees and their volunteers are independent of the IRS.

To find out more about the TBOR and what it means to you visit the Taxpayer Advocate Service's website.

By making this important publication available in multiple languages, the IRS hopes to increase the number of Americans who know and understand their rights under the tax law. The IRS has more tax information in other languages too. See the "Languages" menu at the top of any IRS.gov page.

The IRS also is committed to protecting taxpayers' civil rights. The IRS will not tolerate discrimination based on age, color, disability, race, reprisal, national origin, English proficiency, religion, sex, sexual orientation or status as a parent. This includes any contact with IRS employees and the staff or volunteers at community sites.

If a taxpayer faces discrimination, they can send a written complaint PDF to the IRS Civil Rights Division.

How to clean and maintain stainless steel

No matter the style of a homeowner's kitchen, be it modern, traditional or farmhouse, stainless steel appliances can add a pop of shine and a touch of class. Proponents of stainless steel appliances note their easy maintenance, stylish look and durability. Plus, the neutral tone of stainless steel helps it blend in with just about any color palette.

Stainless steel is lauded for its strength and resistance to corrosion and rust. These attributes make it a popular choice in kitchens, where moisture is an issue. Although they are certainly durable choices, stainless steel appliances require maintenance to keep them looking and performing at their best. Considering that stainless steel also costs more than other finish options, taking the time to learn proper care can help protect homeowners' investments.

- Avoid chlorine bleach or other products containing chloride. Although stainless steel is highly resistant to corrosion, it is not completely impervious. Chlorine products can damage the surface of stainless steel appliances and stain them if the chlorine is left to sit.
- Do not use metal scourers or coarse abrasives on the stainless steel because such products may scratch the steel. Steel wool pads can leave behind a residue of small metal particles that may eventually rust.
- Baking soda mixed with a little dish soap can be used to remove some tough dirt and stains. Rinse well and towel dry to avoid streaking.
- Clean and wipe the steel in the direction of the "grain." Usually this means working from the top of the appliance and moving down toward the floor.
- Consult with the owner's manual before undertaking any maintenance or cleaning. The appliance may have a special coating over the stainless steel to help protect it, and it's best to know what you're dealing with before getting your hands dirty.
- If you will be trying a cleaning product or scouring method, always test it first in an inconspicuous spot to see if it is effective or harmful.
- Julien, a leader in commercial kitchen equipment, recommends applying cleansers with a soft cloth or sponge. Then wipe dry with a soft, clean cloth or allow to air dry.

Stainless steel remains a popular material in kitchens for sinks and appliances. With care, stainless steel can look like new for years to come. SH162862

Create A Lighting Scheme That Works For The Kitchen.

When designing a kitchen, homeowners typically give substantial consideration to many elements of their dream design, including cabinet and countertop materials and which brand of appliances they most prefer. But few may consider the lighting for the room as thoroughly.

Lighting is an important consideration in any room, but most especially in the kitchen, where people tend to gravitate and spend a good portion of their time. The right lighting can have a dramatic effect on the functionality of the kitchen, including how the space feels when you enter it. The right blend of lights can create a vibrant mood in the kitchen, while light can be adjusted according to what needs to get done in the space.

Establishing a lighting plan in a kitchen requires a combination of different lights. The main focus should be on three distinct lighting types: task lighting, ambient lighting and accent lighting.

Task Lighting

Task light is beneficial anywhere a person will need to perform tasks that require close concentration, such as chopping vegetables. Task lighting shines direct light onto a surface, illuminating it thoroughly, and it can be turned off when it is not needed.

Task lighting is generally placed above counters and islands where one will be slicing vegetables and preparing food. There may be lighting over the sink to illuminate dirty dishes. If a kitchen has a desk area, lighting above the desk will make that area more functional. Many task lighting designs include lights under cabinetry to shine down onto counters and eliminate shadowed recesses. Under-cabinet lighting is a relatively inexpensive add-on for existing kitchens. Homeowners can add lighting afterward to focus more light onto countertops.

Ambient Lighting

Ambient lighting is another name for all-over lighting that fills a room. During the day, ambient light may stream in from windows and skylights. However, at night, ambient lighting is created by different light fixtures in a room. In the

kitchen, overhead fixtures are a popular choice for ambient lighting. A blend of hanging pendant lamps, chandeliers and recessed lighting can create the amount of light needed. Homeowners should pay special attention to the bulbs and fixtures they choose, as not all produce the same amount of light. Those concerned about energy efficiency also must give mind to whether the bulbs will use a lot of energy or last a long time. Compact fluorescent bulbs as well as LED lighting are long-lasting and do not use as much energy as incandescent bulbs. Indirect ambient lighting softens shadows in a room, creating a warm, inviting glow. It is an important layer of light that is often overlooked in the kitchen. Setting ambient lighting on a dimmer enables homeowners to cast a mood that is desired when the kitchen isn't being used for prep work.

Accent Lighting

If there are key elements around the kitchen that a person would like to highlight, such as a china set, accent lighting can do the trick. Spotlights can be used to show off collectibles, while a subtle strip of lighting can illuminate a wall of artwork. Many people like to install accent lighting inside of cabinetry to create dramatic focal points.

Some homeowners may want to incorporate decorative lighting in their kitchens. This is the use of ornate chandeliers, hanging pendants and other eye-catching fixtures. Decorative lighting should be considered in proportion to the size of the kitchen. Therefore, smaller kitchens will have smaller fixtures and vice versa. Decorative lighting may be the most expensive type of kitchen lighting, so some homeowners prefer to plan ahead for the inclusion of decorative accents by having the wiring ready and then adding the fixtures over time.

LOOKING FOR AN AFFORDABLE USED CAR?

SICK OF BUYING rusty junk off of an individual or online and then spending more than you paid for it trying to get it functional or to pass inspection? At Central Auto Sales I take pride in buying quality cars that are still in excellent condition that can supply you with many miles of service in the future. I typically buy my cars from states south of NY to avoid the rust associated with local cars. I have a nice selection of cars in the affordable \$4-6K range, most are low miles or low miles for the age. I'm a lifetime resident of Norwich. Buy from someone local. No pressure, no fancy hype, just quality cars at fair prices! Central Auto Sales LLC, 429 Manley Road, Norwich. www.centralautosalesllc.com 607-336-6371.

We buy 8,000 cars a week. Sell your old, busted or junk car with no hoops, haggles or headaches. Sell your car to Peddle. Easy three step process. Instant offer. Free pickup. Fast payment. Call 1-855-403-3374

ONE MAN'S TRASH is another man's treasure – don't throw it out! Sell it in the Pennysaver and make some \$\$! Call us at the Pennysaver: (1-800-767-7862).
