# DANGER

# ZONE

Every year, accidental poisonings result in the deaths of too many young children. Often, everyday household cleaning products and chemicals are the cause. Take these steps to protect your child against accidental poisoning.

## Poison Prevention Guidelines for Household and Chemical Products

- Keep chemicals and household products out of the sight and reach of children.
- Buy household products in child-resistant containers and keep products in their original packaging.
- Store food and household products in separate areas.
- Don't allow distractions to prevent you from being watchful when using household chemicals.
